CONTENTS.

FARMERS' BULLETIN No. 1251.—STANDARD VARIETIES OF CHICKENS.

V. THE BANTAM BREEDS AND VARIETIES: Page.

Purpose for which bantams are kept 3
Characteristics of bantams 4
Houses and runs 6
Feed consumption 7
Breeds and varieties 8
Game Bantam 9
Black-breasted Red Malay Bantam 13
Sebright 13
Rose-comb Bantam 14
Booted White Bantam 15
Brahma Bantam 15
Cochin Bantam 17
Japanese Bantam 19
Polish Bantam 20
Mille Fleur Booted Bantam 21
Silkie 23
Publications relating to poultry raising and egg production 24

FARMERS' BULLETIN No. 1252.—SAWFLIES INJURIOUS TO ROSE FOLIAGE:

Three common rose slugs and their other forms 3
The bristly rose slug 4
The European rose slug 12
The coiled rose worm 12
How to control the rose slugs and protect the foliage 13

FARMERS' BULLETIN No. 1253.—SEED PEAS FOR THE CANNER:

Field peas 4
Canning peas 4
Requirements of a canning pea 5
Seed-pea growing 6
Mixtures and rogues 9
What to rogue 10
Individual plant selection 11
Rogues of Alaska peas 12
Farmers' stocks of Alaska peas 12
Damage done by spurious Alaska peas 13
Precautions 14
Description of Alaska peas and spurious forms 15

FARMERS' BULLETIN No. 1254.—IMPORTANT CULTIVATED GRASSES:

Timothy 6
Kentucky blue grass 8
Redtop 10
Bermuda grass 11
Orchard grass 13
Carpet grass 15
Canada blue grass 17
Tall meadow oat grass 18
Meadow fescue 20
Foxtail millet 22
Rhodes grass 23
Napier grass 25
Sheep's fescue 27
Red fescue 27
Para grass 28
Japanese millet 30
Italian rye grass 31
Perennial rye grass 32
Rhode Island bent 33
Dallis grass 35
Sudan grass 36

FARMERS' BULLETIN NO. 1255.—THE PRODUCTION OF PEAS FOR CANNING:

	Page.
Importance of the pea-canning industry	3
Distribution of the pea-growing industry for canning	4
Methods followed by canners to provide a supply of peas	5
Crop rotations	6
Soils	8
Preparation of the land	9
Fertilizers and manures	10
Inoculation	11
Seed	12
Seeding	13
Harvesting	14
Yields, costs, and payment	18
Insect pests	20
Pea diseases	20
Vine disposal	21

FARMERS' BULLETIN NO. 1256.—SLASH PINE:

How to recognize slash pine	2
Range and distribution	5
Slash pine and livestock	6
Rate of growth	8
Timber production	13
Turpentine and rosin production	19
Reforestation	27
Profits from slash-pine stands	33
Related publications of the Department of Agriculture	40
Summary	41

FARMERS' BULLETIN NO. 1257.—INSECTS INJURIOUS TO THE MANGO IN FLORIDA AND HOW TO COMBAT THEM:

Injurious insects of the mango in Florida	3
The blossom Anomala	3
The red spider	6
The red-banded thrips	9
The mango shield scale	12
The tessellated scale	16
The Florida red scale	17
The mango scale	19
The Florida wax scale	20
Foreign insect enemies of the mango which should be kept out of the United States	21

FARMERS' BULLETIN NO. 1258.—WEBWORMS INJURIOUS TO CEREAL AND FORAGE CROPS AND THEIR CONTROL:

Injury caused by webworms	3
Webworms and parent moths	6
General life history	6
Cornroot webworm	8
Striped webworm	10
Blue-grass webworm	12
Black-headed sod webworm	12
Leather-colored sod webworm	13
Silver-striped webworm	14
General control measures	15

FARMERS' BULLETIN NO. 1259.—A SAWFLY INJURIOUS TO YOUNG PINES:

Appearance, life, and habits of the insect	5
Distribution	10
Trees attacked	10
Periodical outbreaks	10
Natural enemies	10
Control	11

FARMERS' BULLETIN No. 1260.—STORED-GRAIN PESTS: Page.

Popular classification of grain pests ... 3
Grain weevils ... 4
Granary weevil ... 4
Rice or black weevil ... 5
Broad-nosed grain weevil ... 8
Coffee-bean weevil ... 9
Grain borers ... 10
Lesser grain borer ... 10
Larger grain borer ... 13
Grain moths ... 13
Angoumois grain moth ... 13
Wolf moth ... 15
Pink cornworm ... 16
Rice moth ... 18
Flour moths ... 18
Indian meal moth ... 19
Mediterranean flour moth ... 20
Meal snout moth ... 22
Mealworms ... 24
Yellow mealworm ... 24
Dark mealworm ... 28
Grain and flour beetles ... 28
Cadelle ... 28
Saw-toothed grain beetles ... 30
Square-necked grain beetle ... 30
Foreign grain beetle ... 31
Mexican grain beetle ... 32
Siamese grain beetle ... 32
Flat grain beetle ... 33
Confused flour beetle ... 34
Rust-red flour beetle ... 35
Long-headed flour beetle ... 35
Slender-horned flour beetle ... 36
Broad-horned flour beetle ... 36
Small-eyed flour beetle ... 36
Tobacco beetle ... 37
Drug-store beetle ... 37
Black carpet beetle ... 38
Larger cabinet beetle ... 38
Small cabinet beetle ... 39
Museum beetle ... 39
Two-banded fungus beetle ... 39
Black fungus beetle ... 40
Corn sap-beetle ... 40
Book-lice or psocids ... 41
Mites ... 42
Parasites of grain pests ... 42
How grain becomes infested ... 43
How to prevent primary infestation ... 45
The treatment of infested grains ... 46
Heat ... 46
Fumigation ... 47

FARMERS' BULLETIN No. 1261.—THE AVOCADO: ITS INSECT ENEMIES AND HOW TO COMBAT THEM:

All varieties of avocado subject to insect attack ... 3
Injurious insects of the avocado in Florida ... 4
The dictyospermum scale ... 4
The avocado white fly ... 9
The pyriform scale ... 12
The blossom Anomala ... 15
The avocado lace bug ... 17
The avocado blossom thrips ... 19
The avocado leaf roller ... 20
The avocado red spider and the leaf-infesting thrips ... 21
Summary of recommendations ... 30
Foreign insect enemies of the avocado ... 31

FARMERS' BULLETIN No. 1262.—THE BOLL-WEEVIL PROBLEM: Page.
Origin, spread, and present distribution of the boll weevil 3
Damage 4
Prospects in newly invaded territory 6
Work upon which this bulletin is based 7
Description and life history of the boll weevil 7
Hibernation 10
How nature assists in destroying the boll weevil 12
Dissemination 14
Methods of control 15
Direct control by poisoning with calcium arsenate 16
Indirect means of control 18
Ineffective methods of control 25
Effect of methods of control of the boll weevil on the control of other insects 29
Summary of control measures 30

FARMERS' BULLETIN No. 1263.—BREEDS OF SWINE:
Classification of swine 3
Type more important than breed 3
Breeds of the lard type 4
Duroc-Jersey 5
Poland China 8
Chester White 9
Berkshire 12
Hampshire 12
Spotted Poland China 15
Breeds of the bacon type 16
Tamworth 16
Yorkshire 19
Minor breeds 19
Mule foot 19
Kentucky Red Berkshire 20
Cheshire 20
Essex 20
Victoria 21
Large Black 22

FARMERS' BULLETIN No. 1264.—FARM MANUFACTURE OF UNFERMENTED APPLE JUICE:
Production and uses of sweet cider 3
Use of terms 4
Use of chemical preservatives 5
Arrangement and equipment of the cider plant 5
Cleanliness 6
Selection of the fruit 8
Blending 11
Washing and sorting the fruit 16
Grinding and pressing the fruit 17
Handling the juice 26
Preservation by Method I 31
Preservation by Method II 47
Summary of Methods I and II 52
Federal regulations governing the manufacture and sale of cider and unfermented fruit juices 53

FARMERS' BULLETIN No. 1265.—BUSINESS METHODS OF MARKETING HAY:
Methods of marketing 1
Trade rules 9
When and where to sell hay 11
Billing and invoicing shipments 15
Loss and damage claims 24

FARMERS' BULLETIN No. 1266.—PREPARATION OF PEACHES FOR MARKET:
Harvesting 3
Picking utensils 7
Hauling from the orchard 8
Packages 10

FARMERS' BULLETIN No. 1266.—PREPARATION OF PEACHES FOR MARKET—Continued.

Page.

Packing houses ... 15
Southern packing houses ... 16
Northern packing houses ... 27
Grading methods ... 32

FARMERS' BULLETIN No. 1267.—UTILIZATION OF FLUE-HEATED TOBACCO BARNS FOR SWEET-POTATO STORAGE:

Possibilities of sweet-potato storage ... 1
Importance of good storage ... 3
Types of flue-heated tobacco barns ... 4
Converting a 16-foot tobacco barn for sweet-potato storage ... 4
Storing in crates and bins ... 8
Storage-house management ... 9
Sweet-potato varieties ... 11
Publication on sweet potatoes ... 12

FARMERS' BULLETIN No. 1268.—SHEEP-KILLING DOGS:

Outlook for the sheep industry ... 3
Habits of the sheep-killing dog ... 4
Dog-proof and wolf-proof fences ... 4
How dog lovers can aid ... 5
Dog laws ... 6
Digest of existing State dog laws ... 10
Complete dog law of Michigan ... 24
Publications relating to sheep raising ... 29

FARMERS' BULLETIN No. 1269.—CELERY GROWING:

Soils adapted to celery growing ... 4
Fertilizers for celery ... 5
Preparation of the soil ... 5
Growing celery plants ... 6
Transplanting ... 8
Growing plants for the home garden ... 9
Setting celery ... 10
Methods of planting ... 11
Irrigation of celery ... 13
Growing celery without irrigation ... 15
Cultivation ... 15
Diseases ... 16
Blanching ... 20
Harvesting ... 22
Shipping ... 24
Storage ... 25
Preparation for market ... 28
Cost of growing and returns received ... 30
Varieties of celery ... 31
Growing celery seed ... 31

FARMERS' BULLETIN No. 1270.—THE MORE IMPORTANT APPLE INSECTS:

The apple crop and losses from insects ... 3
Codling moth ... 3
Plum curculio ... 7
Lesser apple worm ... 10
Apple red bugs ... 11
Apple maggot or "railroad worm" ... 13
Apple leaf-roller ... 15
Rose chafer ... 17
Apple curculio ... 19
Green fruitworm ... 21
Red-banded leaf-roller ... 21
Serpentine fruit-miner ... 22
Rosy aphis ... 22
Green apple aphis ... 24
Apple-grain aphis ... 25
Rose leaf hopper ... 26
Apple leaf hopper ... 27
Bud moth ... 28

FARMERS' BULLETIN NO. 1270.—THE MORE IMPORTANT APPLE INSECTS—Continued.

Page.

Lesser bud moth 31
New York weevil 32
Red-legged flea-beetle 32
Apple flea-beetles 33
Spring cankerworm 33
Fall cankerworm 35
Apple-tree tent caterpillar 37
Fall webworm 39
Red-humped apple caterpillar 39
Yellow-necked apple caterpillar 42
Gipsy moth 43
Brown-tail moth 44
White-marked tussock moth 46
Hickory tiger moth 48
Apple leaf-crumpler 49
Apple leaf skeletonizer 50
Apple leaf-sewer 50
Cigar case-bearer 52
Pistol case-bearer 52
Trumpet leaf-miner 54
Spotted tentiform leaf-miner 55
Unspotted tentiform leaf-miner 55
Serpentine leaf-miner 57
Apple bucculatrix 57
Palmerworm 58
Pear-leaf blister mite 58
Red spider 59
Clover mite 60
Grasshoppers 61
San Jose scale 62
Oyster-shell scale 65
Scurfy scale 65
Pinhole borers 66
Fruit-tree barkbeetle 66
Buffalo tree-hopper 68
Periodical cicada 68
Snowy tree-cricket 70
Round-headed apple-tree borer 71
Flat-headed apple-tree borer 73
Spotted apple-tree borer 75
Apple crotch-borer 77
Woolly apple aphis 79
Miscellaneous injuries 80
Spray materials 82
Dusting materials 83
Tree-banding materials 84
Spraying apparatus 85
Apple-spraying schedules 86

FARMERS' BULLETIN NO. 1271.—FARM LANDS AVAILABLE FOR SETTLEMENT:

Introduction 1
Cut-over land 3
Drainable lands 15
Irrigable lands 20
Dry farming and grazing lands 26
Federal and State agencies offering information 33
Homesteading 34
Acquiring by purchase 37
Conclusions 47
Appendix 49

FARMERS' BULLETIN NO. 1272.—RENTING DAIRY FARMS:

The renting of dairy farms on which the landlord gets a half share of the receipts 4
The renting of farms on crop shares 22
Renting dairy farms for cash 23

FARMERS' BULLETIN NO. 1273.—THE STOCK-POISONING DEATH CAMAS: Page.

Common names of the plants 3
Characteristics of the plants 4
Effects produced 4
Animals affected 4
Species differ in poisonous properties 4
Grassy death camas 5
Meadow death camas 5
Foothill death camas 8
Mountain death camas 10
Remedies 10
How to avoid poisoning 11
Summary 11

FARMERS' BULLETIN NO. 1274.—USES OF RURAL COMMUNITY BUILDINGS:

Revival of community spirit 1
Growing interest in community buildings 2
Standard types of buildings and their uses 3
Representative examples of community building activities 12
Farming community—building with county-agent features 12
Farming community—farmers' club features 15
Farming and village community—stock show features 17
Farming and village community—fire department features 18
Farming and village community—war memorial feature 22
Farming and town community—motion-picture features 25
Farming and town community—commercial club feature 27
Farming and town community—church-control features 29
Conclusions 32

FARMERS' BULLETIN NO. 1275.—WEEVILS IN BEANS AND PEAS:

Serious losses caused by bean and pea weevils 3
Losses often discovered too late 5
How beans and peas become infested 5
Where weevils in storage come from 8
Destruction continues in storage 8
There are different kinds of weevils 9
General descriptive facts 10
The pea weevil 12
The common bean weevil 13
The cowpea weevil 15
The four-spotted bean weevil 17
The lentil weevil 18
The Mexican bean weevil 19
The broad-bean weevil 19
Why weevils limit acreage planted to certain leguminous food crops 21
Germination affected by weevil attacks 22
Heating due to infestation 23
Remedies 24
Treatment does not prevent reinfestation 33
